Education

University of The People

Associate Degree in Computer Science

Sep. 2024 – Aug 2026

Power Learn Projects

Software Development

Aug. 2024 – Dec 2024

Experience

User Experience Volunteer

Aug 2022

Gaseous Group

South Africa

- Created wireframes and interactive prototypes for the Gaseous Group platform
- Designed user-friendly interfaces using tools like Figma

UI UX Designer Intern

Nov. 2021 – Jun 2022

Reesby

Melbourne, Aus

- Assisted in creating low-fidelity wireframes and high-fidelity interactive prototypes using Figma
- Designed visually appealing and user-centric interfaces that aligned with Reesby's branding guidelines.
- Assisted in conducting usability testing sessions to gather actionable feedback.

Customer Experience Assistant

Jan 2012 – Jun 2014

Sakunda

Harare, Zim

- Provided excellent customer service by responding to inquiries and resolving issues via phone, email, and in-person interactions, ensuring a high level of satisfaction for clients and customers.
- Addressed customer complaints and concerns promptly, offering solutions and working closely with other departments to ensure timely resolutions, resulting in improved customer loyalty.
- Assisted in promoting new products and services, supporting sales initiatives by offering tailored recommendations to customers based on their needs and preferences.

Projects

Telemedicine Platform | Python, Flask, MySQL, Node.js

Aug 2024

- Developed a full-stack telemedicine web application using Flask for the backend API and MySQL for database management.
- Integrated patient and doctor profile management, appointment scheduling, in-app chat, and video call features.

Weather App | Python

Nov 2024

Developed a real-time weather app using Python and APIs to deliver up-to-date forecasts based on city searches. Designed a responsive interface showcasing live weather conditions in a user friendly manner.
